

FEMA ANNOUNCES CHANGE TO FLOOD INSURANCE REQUIREMENT

Today FEMA announced that all of the changes on the Santa Clara River Valley are on hold until the completion of the Santa Clara River Watershed Flood Insurance Study.

During this Flood Insurance Study, all residents along the Santa Clara River Watershed will have an opportunity to participate in the public comment period. This additional time will provide an opportunity for the Ventura County Watershed Protection District and the Cities to pursue options to address these issues.

We still encourage residents potentially at risk of being in the flood zone to purchase flood insurance at the low preferred rate while the study is being completed.
